

Rabin Karmakar

Full Stack Developer Profile

 rabinkarmakar947@gmail.com  (+91) 8967-873860 / 97494-36840  rabin-642894219  rabin97

Professional Summary

Full Stack Developer with 3.5+ years of experience leading agile development teams and delivering enterprise-scale applications. Expertise in **Node js**, **Nest js**,**React Js**, **Next Js**, **TypeScript**, , and modern **JavaScript(Es6+)** ecosystems with proven track record of optimizing performance and mentoring development teams. Strong focus on scalable architecture, clean code practices, and continuous delivery.

Professional Experience

Software Engineer Sept 2025 – Present
Digitap.ai

- Worked as a Software Engineer leading a frontend product, owning development, Jira ticket creation, technical documentation, pull request reviews, and day-to-day frontend execution.
- Guided and mentored frontend team members by reviewing code, enforcing best practices, and ensuring maintainable and scalable implementations.
- Implemented a **hybrid AES–RSA encryption architecture** for secure communication between frontend and backend systems.
- Designed a **session-based AES key exchange** mechanism to avoid hardcoding encryption keys and improve overall application security.
- Refactored legacy frontend codebases to improve scalability, readability, and long-term maintainability at scale.

Full Stack Developer Dec 2023 – Present
Explorogent International Services Pvt. Ltd. (Stackkaroo)

- Led 10-person agile development team delivering enterprise applications with 99.9% uptime.
- Implemented CI/CD pipeline reducing deployment time by 40%
- Developed CryoFlow, a Full-Stack Cold/Non-cold chain logistics and pharmaceutical delivery management system using **Back-end: in Node js (NestJS)**, and **Frontend: in React js (Next.js)**, and **PostgreSQL**, implementing complex order processing, temperature monitoring, compliance features.
- Designed scalable architecture with **JWT authentication**, **AWS S3** integration, and real-time tracking, enhancing operational efficiency and regulatory compliance.

MERN Stack Developer Oct 2022 – Dec 2023
Explorogent International Services Pvt. Ltd. (Stackkaroo)

- Engineered high-performance RESTful APIs with JWT authentication usign **Access Token** and **Refresh Token** to handling substantial monthly traffic
- Enhanced database efficiency by optimizing MongoDB aggregation pipelines, reducing processing time by 28%
- Streamlined application architecture with Redux Toolkit integration improving code maintainability

Backend Developer July 2022 – Oct 2022
Explorogent International Services Pvt. Ltd. (Stackkaroo)

- Developed high-performance RESTful APIs using Node.js and Express.js
- Architected scalable MongoDB database schemas with strategic indexing for optimized performance

Technical Skills

Languages: JavaScript, **TypeScript**, HTML/CSS
Frameworks: **Next.js**, React Js, **NestJS**, Express, Node.js, Tailwind CSS
Systems: Microservices, REST APIs, WebSockets
Databases: MongoDB, PostgreSQL, Redis, Mongoose, PrismaORM
Tools: Git, Docker, AWS, S3, RDS, CI/CD (GitHub Actions), Postman, ESLint , husky , Prettier
Management: Agile/Scrum, Sprint Planning, Technical Mentoring
Problem Solving: Solved 250+ **DSA** Questions

Key Projects

Winky UI - Enterprise-Grade React Component Library [Website](#) 2025

- Designed and developed an enterprise-grade React library with **10+** production-ready components using **Next.js 15**, **shadcn/ui**, and **Framer Motion** for advanced animations.
- Engineered a custom registry-based CLI using Shadcn CLI for seamless installation, ensuring high performance (<5kB average bundle size) and **WCAG 2.1 AA** accessibility compliance.

CryoFlow - Cold/Non-Cold Chain Logistics System 2024–2025

- Developed a full-stack Cold/Non-Col logistics platform for pharmaceutical delivery using **NestJS**, **Next.js 15**, and **PostgreSQL** to ensure end-to-end temperature monitoring and regulatory compliance.
- Architected a scalable backend with **NestJs**, **Prisma ORM**, featuring **JWT authentication**, **Redis** caching, and **AWS S3** for storage, while building the frontend with the **Next.js App Router** and **Redux Toolkit**.
- Engineered core modules for order, inventory, and delivery management, implementing **Role-Based Access Control (7 roles)**, real-time tracking, and automated server side PDF generation by **PDFKit** to enhance operational efficiency.

Education

M.Tech in Computer Science & Engineering 2024 – 2026
Bankura Unnayani Institute of Engineering bankura, India
CGPA: 8.09/10 (Pursuing)

B.Tech in Computer Science & Engineering 2020 – 2024
Bankura Unnayani Institute of Engineering Bankura, India
CGPA: 8.66/10
